ESSILOR INDEPENDENT DISTRIBUTOR DIVISION NAMES

2012 AWARD WINNERS

Annual Laboratory Awards Recognize Top Distributors

DALLAS – Jan. 8, 2013 – Essilor of America, the nation’s leading manufacturer of optical lenses, today announced the winners of its Independent Distribution Division (IDD) Annual Laboratory Awards. The awards recognize independent distributors who have achieved top sales and marketing performance in specific Essilor product categories.

Essilor determined the award winners based on a combination of several key sales-related factors including sales dollar and unit growth, marketing programs executed throughout the year and partnership with the Essilor brand sales team.

Essilor’s IDD group is dedicated to growing the market by offering technologically-advanced products and services through its independent distributor partners. In addition, IDD is committed to providing industry-leading programs, initiatives and services that increase customer sales revenue and margins. The goal of IDD is to partner with independent labs to leverage their unique and individual strengths in order to elevate Essilor’s premium brands such as Varilux[®], Crizal[®], Xperio[®] and DEFINITY[®], thereby creating continued growth in the premium lens categories in the marketplace.

“Essilor IDD is dedicated to providing our independent laboratory partners with the very best sales and marketing tools and support to help them win customers and increase their profits,” said Bob Colucci, president, IDD, Essilor of America. “We look forward to another successful year of partnerships with these outstanding labs as they continue to grow their business.”
